

In-Domain NER Performance Comparison

(Final NER achieves best balance across all models)

Source: thesis_verified_results.json + eval_final_ner_raw.json + eval_best_ner_raw.json | Verified: May 4, 2026

Key Finding: Final NER (0.852) achieves the best overall balance. While Best NER has slightly higher F1 (0.860), it completely loses linguistic capability (D2 = 0%).
